DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/07/2006 has been entered.
2. Claims 1-14, 16-19, 28-30, 32-35, and 44-46 are canceled.

Response to Argument

3. Applicant's arguments are persuasive.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

Claims 15, 20-27, 31, and 36-43 are allowed.

Claims 15 and 31: Prior art of record neither alone nor in combination teach a method/computer readable medium for a secure processor to instantiate and authenticate a secure application thereon by way of security kernel, comprising transmitting from a normal mode to a preferred kernel mode upon a non-power-up executed CPU reset to instantiate an application by accessing encrypted key to decrypt and authenticate the application, instantiating the application while in the preferred mode only after authentication, and

transitioning to normal user mode, and the application as instantiated during the preferred kernel mode being available for use during the transitioned-to normal mode.

Claims 25 and 41: Prior art of record neither alone nor in combination teach a method/computer readable medium for a secure processor to instantiate and authenticate a secure application thereon by way of security kernel, comprising setting a chooser value for corresponding chooser application, transmitting from a normal mode to a preferred kernel mode upon a first power-up CPU reset to instantiate an application by accessing encrypted key to decrypt and authenticate the application, instantiating the application while in the preferred mode only after authentication, and transitioning to normal user mode, and the application as instantiated during the preferred kernel mode being available for use during the transitioned-to normal mode.

Claims 20-24, 26-27, 36-40, and 42-43 are allowed because of dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
